📍 Surat(Yogi chowk), Gujarat, India   in Kaushik Borad

🪪 PROFILE

Motivated BCA graduate with foundational knowledge in **HTML, CSS, JavaScript, React, Node.js, and MySQL**. Passionate about **Full Stack Development** with a strong desire to learn modern frameworks and industry best practices. Seeking an internship opportunity to **apply programming skills**, collaborate on real-world projects, and grow into a proficient full-stack developer.

🛠 SKILLS

- Basic OPPs Concept
- HTML, CSS, Bootstrap
- JavaScript, React
- Node.js
- MySQL, MongoDB

🖥 TOOLS

Visual Studio Code

Web Storm, (HTML, CSS Coding)

Vercel, Web site LIVE (Frontend)

Render, Web site (Backend)

MongoDB (Atlas)

📁 PROJECTS

Food Delivery Website, Front End 🔗 — 02/2025

Designed and developed a **highly responsive and interactive frontend** for a modern food delivery platform using **ReactJS, Next.js, HTML5, CSS3, JavaScript, Bootstrap, and Material UI**. The focus was on **user-centric design, fast navigation, and mobile-first responsiveness** to provide an engaging customer experience.

Food Delivery Website, Back End 🔗 — 02/2025

Built a **scalable and secure backend system** for the food delivery platform using **Node.js, Express.js, and MongoDB**. Designed the backend with a **RESTful API architecture** to handle authentication, menu management, cart operations, order processing, and payment integration.

Porto Photography, Front end 🔗 — 12/2024

Developed a visually appealing and responsive photography portfolio website using **HTML5, CSS3, Bootstrap**, and **Material UI**. Designed engaging layouts to showcase images with optimized loading speed and smooth navigation. Focused on **UI aesthetics**, **responsive design**, and **cross-device compatibility** to deliver an enhanced user experience.

📚 COURSES

Full Stack Development Course, JBS IT Institute 🔗 — 2024 – 2025 / Surat, Gujarat

Acquired practical knowledge in Front-end technologies (HTML5, CSS3, JavaScript, React.js) and Back-end technologies (Node.js, MySQL, MongoDB) with a focus on responsive web design, RESTful API development, and database management. Built multiple demo projects simulating real-world applications, demonstrating skills in API integration, and full-stack project deployment.

🎓 EDUCATION

Bachelor of Computer Applications,
Bhagwan Mahavir College of Computer Applications

2021 – 2024/25
Surat, Gujarat
